## **QUADRA 4.0Tonne CAPACITY 4 POST GEOMETRY LIFT**

**494 9203**

### **KEY FEATURES**

- **Motorised platform width adjustment**
- **Adjustable auxiliary lifting system**
- **Platform recesses for radius turning plates**
- **Bearing mounted rear wheel slip plates**
- **Heavy duty rigid platforms**
- **Electronic control panel**
- **Designed specifically to accommodate vehicle geometry measuring Equipment**
- **Electronic & mechanical safety systems**

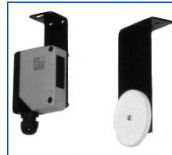

# QUADRA 4 POST GEOMETRY LIFTS 4,000kg LIFTING CAPACITY

4 tube lighting kit

Inspection Lamp & Reel

Low Ceiling Safety Device

Drive Through Kit

2 stage access ramps

## ABOUT QUADRA

The Quadra family of 4 post lifts has been designed for use in the modern vehicle workshop and to meet VOSA MOT requirements. Exceeding all current safety standards the Quadra has 3 independent safety systems, including an electronically operated mechanical latching system.

Durability, high performance and low operating costs are ensured through the use of the highest specification materials and components. All Tecalemit products are supported throughout the UK by Tecalemit Service Engineers and worldwide by our distributor network.

Tecalemit products conform to CE requirements.

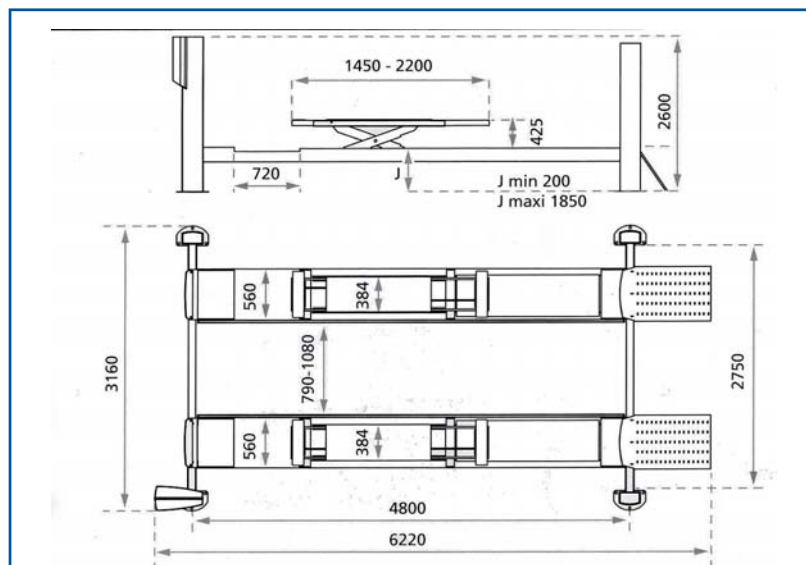

## INSTALLATION & APPLICATION

The 494 9203 Wheel alignment lift is constructed to meet the most stringent requirements of modern vehicle geometry measuring equipment and incorporates all the features required for this specific application.

An important feature is the motorised right hand lifting platform that can be positioned to ensure that all vehicles can be centrally mounted onto booth platforms. Installation of the lift must be onto a floor of the highest quality, please consult your Tecalemit Area Sales Manager for full details. Power requirements are 3ph + neutral, 50Hz via a 20 amp fused isolator.

### Recommended Jacking Beams

As the 494 9203 includes an auxiliary wheel free lifting system there is no requirement for a jacking beam.

## PART NO & ORDERING INFORMATION

Quadra 4.0t Wheel Alignment Lift, 3Ph Surface Mounted	494 9203
--	----------

## TECHNICAL SPECIFICATIONS & DIMENSIONS

Platform Length	4800mm
Platform Width	560mm
Min Platform Height	200mm
Maximum Platform Height	1850mm
Distance between Platforms	790 - 1080mm
Overall Lift Length	6220mm
Overall Lift Width	3160mm

## OPTIONS & ACCESSORIES

1. 4 Tube Lighting Kit (Aux Lifts) (When installed with lift)	494 8580
2. Inspection Lamp & Reel	312 9631
3. Low Ceiling Safety Device (Installation customer responsibility)	494 8521
4. Drive through Kit - Surface Mounted Lifts	493 8540
5. 2 Stage Access Ramps	494 8541

### SERVICE

Tecalemit have a team of over 50 service engineers covering the whole of the UK. On-site maintenance, testing, re-calibration and trouble-shooting can all be carried out with the minimum of fuss and downtime for customers. Please consult our Plymouth Service Centre for further information on 01752 219100.

### WARRANTY

All products carry a 12 month warranty from the date of supply/installation, installation to be carried out by Tecalemit engineers. Exceptions to this being electrical cables and consumables.
