- Easy to use hidden (split) weight programme
- Suitable for balancing all types of car & LGV aluminium alloy wheels
- Equipped with automatic measuring system for wheel data, speeding up the balancing procedure
- Fitted with PAX wheel programme
- Suitable for higher volume garages & tyre shops
- Increased tool & weight storage space on cabinet

# WHEEL BALANCING EQUIPMENT

## SBM 150

### INSTALLATION & APPLICATION

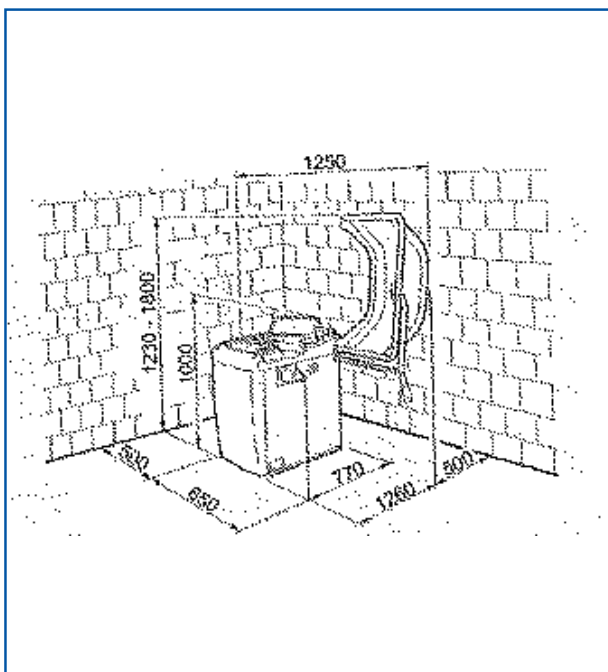

The SBM 150 automatic wheel balancer from Tecalemit features high speed automated data entry via 2 measuring arms, which accurately calculate the wheel dimensions. The SBM 150 balancer has been developed for use specifically in high throughput garages, tyre shops and fast fits.

The SBM 150 has a large stable cabinet with ample storage space and double LED display it also has a complete range of balancing programmes for Aluminium alloy wheels, pax wheels and a hidden weight programme for spoked wheels.

The SBM 150 requires a 1Ph 240v power supply and must be installed on a flat, stable surface.
