- Hidden weight programme

WHEEL BALANCING EQUIPMENT

SBM V650

INSTALLATION & APPLICATION

The SBM V650 automatic wheel balancer from Tecalemit features high speed automated data entry via 2 measuring arms, which accurately calculate the wheel dimensions. The SBM 650 balancer has been developed for use specifically in high throughput garages, tyre shops and fast fits where speed and precision are a pre-requisite.

The SBM V650 has a large stable cabinet with ample storage space and 17" Video display, it also has a complete range of balancing programmes for Aluminium alloy wheels, pax & a hidden weight programme for spoked wheels.

Ease of use is enhanced by the high definition colour graphics which clearly display the weight position requirement.

The SBM V650 requires a 1Ph 240v power supply & must be installed on a flat, stable surface.
