

Car & Light Commercial Vehicle Brake Testers for UK MOT Testing of Class III, IV, VL & VII vehicles

Part No.: DE/9719

See overleaf for more information

- Approved for MOT & ATL Testing Classes III, IV, VL & VII
- Roller bed 4,000kg axle capacity
- Heavy duty rollers with long life epoxy corundum coating
- Low ratio for easy exit from rollers
- 4 Point axle weighing on ATL specification
- Optional hi-intensity LED display screen
- Approved for DVSA MTS Connected MOT testing

Car & Light Commercial Vehicle Brake Testers for UK MOT Testing of Class III, IV, VL & VII vehicles

→ About the DE/9719

The DE/9719 brake tester range has been developed to meet the latest UK regulatory requirements for connected MOT testing and can be supplied in a range of configurations to meet specific user requirements. Operated via an infra-red remote control it is simple to use and highly accurate.

The fully galvanised roller bed sits flush in the workshop floor and is supplied with roller covers for safety and protection when not in use. DE/9719 can be used for testing III, IV, VL & VII Classes, covering cars and light commercial vehicles.

The brake tester is fully PC controlled and can be easily upgraded to include Tecalemit's emissions testing system. The DE/9719 is fully approved for MOT (2 person) or Automated Test Lane use. The brake tester can be used with 4X4 vehicles, subject to the vehicle manufacturer's specification, extending the range of cars and vans that can be tested.

→ Ordering your brake tester

The final specification of your brake tester will be determined in consultation with your Tecalemit technical representative and will depend upon the type of testing and installation you require.

→ Technical Specifications & Dimensions

Max permitted axle load.....	4,000kg
Motors.....	2 x 4.5kW
Roller speed.....	2.9kph
Roller diameter.....	206mm
Roller length.....	900mm
Motor controls.....	Remote
Brake force display.....	0-1,250Kg
Wheel slip sensing.....	Autostop
Roller chassis dimensions.....	2,810 x 710 x 330mm

→ Accessories

Pedestal for Hi-intensity LED display.....	OA/60028/2
Inkjet Printer.....	OA/62355
Brake efficiency calculator.....	81611/864 /4
Wheel Chock.....	OA/6877
Vehicle weight wall chart.....	DE/12
Brake test record forms.....	FRM/571

→ Options

Installation	✓	Visualisation	✓	Workstation	✓	Connection	✓
No frame required for non-weighing MOT brake testers		22" Flat screen. Included with all brake testers. Mounted on workstation 100/216		Wall mounted locker for 22" flat screen and keyboard OA/62723		Hard wire connection, includes cables. Recommended OA/62726	
Support steels. Required for weighing (ATL) brake testers 100/444		Additional 32" screen for display of test results OA/61100		Floor-mounted (fixed) locker for 22" flat screen and keyboard OA/62437		Wireless connection, includes aerial OA/62725	
Support steels with top frame. As above with 60mm steel pit edging OA/62549		Additional 50" screen for display of test results OA/62455		Full sized cabinet with storage space and worktop for 22" flat screen OA/60551			
Full installation pit frame. Recommended OA/62550		Tecalemit's Hi-intensity LED, purpose designed display screen. Recommended OA/62458
